1. PURPOSE

This policy sets out the framework for a clear and consistent assessment of the overall performance of teachers, including the Head Teacher within all Reach South Academies. Appraisal within Reach South will be a supportive and developmental process designed to ensure that all teachers have the skills and support they need to carry out their role effectively. It will help to ensure that teachers are motivated and able to continue to improve their professional practice and to develop as teachers. The policy will support each teacher's development within the context of the school's plan for improving educational provision and performance and the Teacher's standards as well as the specific expectations of Reach South for all of its' teaching staff. If there are any serious concerns raised about a teacher's performance that cannot be addressed and resolved through the appraisal process, there will be consideration of whether to commence the capability procedure.

2. APPLICATION

The policy applies to the Head Teacher and to all teachers employed by the school or trust except those on contracts of less than one term, those undergoing induction (NQT's) and those subject to the formal Capability Procedure (please see separate Capability Policy). Regional Directors are appraised as part of the central Reach South Staff performance management framework and are not included here.

The policy should be read in conjunction with the Reach South Teachers' Pay Policy, which provides details of the arrangements relating to pay. The operation of this appraisal policy and process has been workload impact assessed to ensure that it does not add to the workload of anyone involved.

All performance management activities will take place within the teacher's directed time, but not within a teacher's PPA time.

The appraisal policy must always be applied fairly and in accordance with employment law and Reach South Equalities policies. The application of this policy will not directly nor indirectly discriminate against members of staff on the grounds of their gender, age, disability, gender re-assignment, marital or civil partnership status, pregnancy, maternity status, race (including colour, nationality and ethnic or national origins), religion or belief, or sexual orientation.

The application of this policy will not directly nor indirectly discriminate against members of staff on the grounds of trades union membership or activities

3. PAY PROGRESSION FOR TEACHERS

Where teachers are eligible for pay progression, the recommendation made by the appraiser will be included on the Pay progression recommendation/outcome form (see Appendix 7) and will be based on the assessment of their overall performance against the agreed objectives, teachers' (and/or other relevant) standards for pay progression. The recommendation made by the appraiser will be passed to the finance committee of the LGB via the Head teacher. It will be for that relevant body to consider recommendations and make determinations about pay, with input from the Head Teacher. Recommendations on Head teachers' pay will be sent from the lead appraiser to the finance committee of the MAT Board. The relevant body will ensure that decisions on pay progression are made by 30th November for Head teachers and 31st October for other teachers, with effect from 1st September.

4. THE APPRAISAL PERIOD

The appraisal period will run for 12 months from September to September for teachers. Teachers who are on a fixed term contract of less than one year will have their performance managed in accordance with the principles underpinning this policy. The length of the period will be determined by the duration of their contract.

There is flexibility to have a longer or shorter appraisal period when teachers begin or end employment with a school or within the trust.

Where a teacher transfers to a new post within the school/Trust, part-way through a cycle, the head teacher, or in the case where the employee is the head teacher, the governing body shall determine whether the cycle shall begin again and whether to change the appraiser.

5. APPOINTING APPRAISERS

The Head teacher will be professionally appraised by their line manager. This will be the relevant Regional Director.

The Head Teacher will decide who will appraise other teachers. The Appraiser will always be the Head Teacher or Line Manager and will always be a qualified teacher with current/recent teaching experience. Account will be taken of the number of staff any one person appraises. A teacher may request an alternative appraiser to the Head Teacher in writing. Where possible, a suitable alternative appraiser will be offered. The decision of the Head teacher will be final.

Where it becomes apparent that the appraiser appointed by the head teacher will be absent for the majority of the appraisal cycle, the head teacher may perform those duties herself/himself or delegate those duties to another teacher for the duration of that absence.

If the head teacher appoints an appraiser who is not the teacher's line manager, the appraiser to whom she/he delegates those duties will have an appropriate position in the staffing structure, together with the necessary background knowledge, skills and training to undertake the role.

The appraisal structure will be circulated to all staff each September (*Please attach or insert your academy's own individual appraisal structure into Appendix 1*).

All staff carrying out appraisals will have undergone the ECM /Reach South Appraisal training or equivalent as agreed with the trust and will be confident in the use of the ECM appraisal toolkit materials.

6. SETTING OBJECTIVES

No more than three objectives will be set for any teacher.

The Head teacher's objectives will be set by their line manager, the Regional Director, who will consult with the LGB.

Objectives for each teacher will be set before, or as soon as is practicable after, the start of each appraisal period. There will be a two-week time frame for objectives to be set in September which will be outlined by each academy.

Before, or as soon as is practicable after, the start of each appraisal period, each teacher will be informed of the standards against which that teacher's performance in that appraisal period will be assessed. All teachers will be assessed against the Teacher Standards.

Other specific Reach South guidance on standards for assessment are included in the appendices.

Teachers who are qualified by holding QTLS status will be assessed against the Teacher's standards.

Before the meeting, teachers need to ensure that they have reviewed their professional standards and professional development documents to highlight any areas for development/aspiration (see appendices 3 & 4). Their team leader/ appraiser will also do this.

The Teachers' Standards will be used to inform the setting of the teacher's appraisal objectives and will not be used as a checklist against which the teacher's performance is assessed;

The objectives for each teacher will, if achieved, contribute to the school's plans for improving the school's educational provision and performance and improving the education of pupils at *(insert name)* academy. This will be ensured by rigorous monitoring procedures and quality assuring of all objectives against the school improvement plan *(insert any other agreed -between the appraiser and appraisee- documents here)*

Teachers may undertake a self-evaluation exercise prior to their Appraisal meeting. Wherever possible a copy of these filled in documents should be given to the appraiser at least 24 hours in advance to allow for meaningful preparation.

During the objective setting meeting, the following should be discussed:

- Setting of objectives for the next academic year through a review of the professional standards; professional development documents; and the relevant documents within the toolkit. This should be done in partnership. If agreement through partnership is not possible, the appraiser will set the objectives based on the above. Rigorous, aspirational and achievable targets need to be set that fit in with the whole school targets.
- A discussion about what is going well, focusing on evidence.
- An Objective statement and Action plan.
- The objective setting meeting will include discussion and agreement regarding the plans for observation and review during the appraisal cycle. There will be a maximum of three formal lesson observations, totaling no more than three hours.
- Agreement on the evidence that will be collected during the cycle and from whom evidence may be sought.
- Members of staff receiving additional pay for teaching and learning responsibilities (TLR's) may have one of their objectives based on their performance targets that hold them accountable for the performance of others in delivering quality teaching and learning and in achieving good pupil progress. This may be reflected in the wording of the objectives.

The objectives set for each teacher will:

- Be Specific, Measurable, Achievable, Realistic and Time-bound (see further guidance in toolkit)
- Be Appropriate to the teacher's role and level of experience.
- Include appropriately challenging and measurable targets that evidence individual teachers are doing all they can to raise pupils' achievement
- Make reference to the competencies and behaviours required to achieve good outcomes for pupils
- Be Fair and equitable. This will be in relation to teachers with similar roles/responsibilities and will also be sensitive to each individual teacher's circumstances. Objectives will also be consistent with each school's strategy for achieving a reasonable work/life balance for all staff. Schools will be mindful that resources will need to be made available for the implementation of this policy, particularly in relation to training and accessibility. This will be moderated across each school to ensure that all appraisers are working to the same standards. At Regional and Trust level.

Objectives may be revised and reasonable adjustments made if there is a significant change in circumstance, e.g. a change of job role, long term sickness, maternity leave, disability, or if a teacher requires more support to meet the Teacher's Standards. If objectives for an individual are changed then these will need to be referred back to the Appraiser and Appraisee before being implemented.

Appraisers and appraisees will be clear as to what success will look like and how progress will be measured. This means that the agreed objectives will contain a description of what success may look like. The appraiser and appraisee will seek to agree the objectives and objectives may be revised if circumstances change. Should the objectives not be agreed, the final decision on allocation of objectives rests with the appraiser.

Appraisees may, at any point, append their comments alongside their objectives.

7. REVIEWING PERFORMANCE

7.1. Development and Support

Appraisal is a supportive process which will be used to inform continuing professional development. It will be carried out in partnership between teachers and appraisers in order to support teachers to aspire to and meet their objectives and to facilitate their career progression. All appraisers within Reach South will have received approved appraisal training which is based on the quality of the appraisal process as a supportive process.

Reach South wishes to encourage a culture in which all teachers at all career levels take responsibility for improving their teaching through appropriate professional development. Professional development will be linked to school improvement priorities and to the ongoing professional development needs and priorities of individual teachers. Appraisal performs the dual function of driving the school and the trust forwards and supporting and developing its valuable staff.

To this end, the school's/Trust's CPD programme will be informed by the training and development needs identified as part of the appraisal process. The LGB will ensure in the budget planning, that, as far as possible, resources are made available in the school budget for appropriate training, and support agreed for

appraisees, maintaining access on an equitable basis.

An account of the training and development needs of teachers including the instances where it did not prove possible to provide any agreed CPD, will form a part of the head teacher's annual report to the LGB about the operation of the appraisal process in the school.

With regard to the provision of CPD in the case of competing demands on the school budget, a decision on relative priority will be taken with regard to the extent to which:

- a) The training and support will help the school to achieve its priorities; and
- b) The CPD identified is essential for an appraisee to meet their objectives.

Account will be taken in a review meeting of where it has not been possible for teachers to fully meet their performance criteria because the support recorded in the Objective planning statement has not been provided.

7.2. Observation

Reach South believes that observation of classroom practice and other responsibilities is important both as a way of assessing teachers' performance in order to identify any particular strengths and areas for development they may have, and of gaining useful information which can inform school improvement more generally. All observation will be carried out in a supportive fashion. The classroom observation protocol is set out in Appendix 5 and the Observation focus document is at Appendix 6.

All classroom observation will be carried out by those with QTS/QTLS, and all those undertaking classroom observation will be suitably trained. Observation will not be over-burdensome for the appraisee or appraiser.

Observations will be carried out in a supportive fashion, with professionalism, integrity and courtesy, will be evaluated objectively and reported accurately and fairly and will take account of particular circumstances which may affect performance on the day.

For the purpose of Appraisal, teachers' performance will be observed on an appropriate and reasonable number of occasions in accordance with the Observation Protocol (Appendix 5) and will, as far as possible, be agreed by the appraiser with the appraisee based on the individual circumstances of the teacher and the overall needs of the school.

In exceptional circumstances where serious concerns have been raised about a teacher's performance (see section 8.4), or where the teacher requests, additional observation visits may be agreed.

7.3. Feedback and Records

Constructive oral feedback will be given as soon as possible after formal observations take place and no later than the end of the following working day. It will be given during directed time in a suitable, private environment.

If issues emerged from an observation that were not part of the focus of the observation as recorded in the planning and review statement, these should also

be covered in the written feedback and the appropriate action discussed with the teacher. Other issues relevant to the Appraisal process can also be discussed at this meeting.

Written feedback will be provided within 5 working days of a formal appraisal observation. Feedback will highlight particular areas of strength as well as areas needing development. The written record of feedback will include the date on which the observation took place, the lesson observed and the length of the observation. The teacher has the right to append written comments on the feedback document. No written notes in addition to the written feedback and teacher's comments will be kept.

The appraiser will be given sufficient time within the school day to put in written form the conclusions agreed with the appraisee on the outcomes of the classroom observation.

Teachers will have access to all written accounts of the observation after their lessons and, if they request, copies will be provided.

Teachers (including the head teacher) whose posts have responsibilities outside the classroom should also expect to have their performance of those responsibilities observed and assessed.

7.4. Teachers experiencing difficulties

Where, during the appraisal cycle, there is clear evidence of serious concerns about any aspects of the teacher's performance, the appraiser will arrange to meet formally with the teacher giving at least 5 days' notice. Prior to the meeting the appraiser will provide the teacher with clear written feedback about the nature and seriousness of the concerns.

At the meeting the teacher and the appraiser will:

- Consider the evidence of serious concerns;
- Give the teacher the opportunity to comment and discuss the concern; this discussion will include the contextualisation of the concerns, for example, external influences.

Wherever possible, agree any reasonable and constructive further action required that will be offered in the form of a support programme;

- Wherever possible, agree any reasonable and constructive further action required that will be offered in the form of a support programme;
- Make clear how, **and by when**, the appraiser will review progress (it may be appropriate to revise objectives and it will be necessary to allow sufficient time for improvement. The amount of time will depend on the seriousness of the concerns but will not be less than 8 weeks except in exceptional circumstances.
- Explain the implications and the process if no – or insufficient – improvement is made

This meeting and any further support and guidance given will be with the aim that the teacher's performance improves and the need to move into formal capability procedures is avoided. Teachers are entitled to bring a trade union representative to the meeting as this is the best opportunity to avoid the matter becoming

formalised.

The Reach South Teacher Support Programme can be found below. This will be implemented for teachers who fall under 8.4.

Where sufficient progress is made such that the teacher is performing at a level that indicates that there is no longer a possibility of capability procedures being invoked the teacher should be informed of this at a formal meeting with the appraiser or head teacher. Following this meeting, the appraisal process will continue as normal. The outcome will be provided in writing to the teacher.

8. TRANSITION TO CAPABILITY

If the appraiser is not satisfied with progress following the agreed additional support and time frame, they will report this to the head teacher.

Within 5 working days the head teacher will write to the teacher (appraisee) inviting them to a formal capability meeting, with at least 5 working days' notice. The notification will include:

- Sufficient information about the concerns about performance and their possible consequences to enable the employee to prepare to answer the case at a formal capability meeting
- Copies of any written evidence connected to the concerns
- The details of the date, time and place of the meeting
- Advice to the employee of their right to be represented/accompanied by a trade union official or Locally Elected Officer at the level of the Local Authority or work colleague.
- The names of those who will be at the meeting and their role
- Add an extra copy of letter for representative, which should be sent to the local union Secretary's office by the school
- An outline of possible courses of action
- A copy of the Capability Policy

Wherever possible the time and date of meeting should be agreed with the employee and their representative

The process to be followed is set out in detail in the capability procedure

Following the meeting the outcome will be confirmed in writing by the head teacher (or the Regional Director in the case where the appraisee is the head teacher) within 5 working days.

9. ANNUAL ASSESSMENT

At the end of the performance management cycle a formal review meeting will be held where the appraiser and appraisee will discuss achievements, any areas for improvement and professional development activities.

The assessment meeting is the end point to the annual appraisal process, but performance and development priorities will be reviewed and addressed on a regular basis throughout the year at the feedback meetings following formal observation. This is to ensure there are no surprises at the annual assessment meeting.

In assessing the performance of the Head teacher, the external advisor (Regional Director) must be consulted.

The annual assessment meeting will be run in accordance with this policy. Appraisers will have attended the ECM/Reach South appraisal training, and will have discussed the running of the annual assessment meeting with their appraisee in advance.

The purpose of the review meeting will be to:

- assess the extent to which the appraisee has met their objectives
- determine whether there has been successful overall performance in confirming the appraisee continues to meet the relevant professional standards

- if necessary, identify the need for additional support, training or development and how this will be met
- A recommendation on pay progression

The Head teacher/Principal is responsible for submitting the pay recommendations to the LGB Finance Committee for approval. For recommendations regarding the Head teacher's pay progression, the Regional Director is responsible for submitting the recommendation to the MAT Board Finance Committee.

(NB – The final pay recommendation need to be made by 30 November for Head teachers and by 31 October for other teachers by the finance Committee of the LGB. It will therefore be necessary for the appraisal review to be concluded in good time to ensure that this will be accomplished.

Where the Head teacher has not been recommended for pay progression, s/he will be informed by the Regional Director and confirmed in writing within 5 working days.

The Pay progression recommendation form (to be used in compliance with the Teachers' Pay policy) (Appendices 12 and 13) will form part of the written appraisal report.

Good progress towards the achievement of a challenging objective will be assessed favourably. Assessment against the Teachers' Standards will start from the premise that all teachers are meeting the Teachers' Standards and they will be assessed as meeting the standards unless clear, compelling written evidence to the contrary is provided

The teacher will receive as soon as practicable following the end of each appraisal period, a written appraisal report, which will have been drawn up during the discussion between the reviewer and teacher at the meeting. The teacher will have the opportunity to comment on the appraisal report in writing, Teachers will receive their written appraisal reports by 31 October (30 November for the Head teacher). There will be space on the report for the appraisee to record any comments.

The appraisal review statement at the end of the cycle must be the only source of evidence teachers require to support pay progression.

10. APPEALS

Appraisees have a right of appeal against any of the entries in the written appraisal report or any procedural issues arising from the Appraisal procedure, including the Appraisers pay recommendation. If the appeal is against the pay progression /determination it should be carried out under the Pay policy appeals procedure (Appendix 2 of the Pay policy) The Grievance procedure should be used If a teacher/Head teacher wishes to exercise their individual right of appeal against the content or misapplication of the Appraisal process and Policy.

11. GENERAL PRINCIPLES UNDERLYING THE POLICY

11.1. ACAS Code of Practice on Disciplinary and Grievance Procedures

The conduct of the formal capability stage will be undertaken in accordance with the provisions of the ACAS Code of Practice.

11.2. ACAS Guidance – How to manage performance

11.3. Consistency of Treatment and Fairness

The LGB is committed to ensuring consistency of treatment and fairness and will abide by all relevant equality legislation.

11.4. Sickness

If long term sickness absence appears to have been triggered by the commencement of monitoring or the implementation of a Teacher Support Plan, the case will be dealt with in accordance with the Trust's absence policy and will normally be referred to the Occupational Health Service to assess the member of staff's health and fitness for continued employment and the appropriateness or otherwise of continuing with formal procedures. In some cases, it may be appropriate for formal procedures to continue during a period of sickness absence. However, the views of an OH Physician will always be taken into account before a decision is reached.

11.5. Grievances

Where a member of staff raises a grievance regarding the appraisal process, the appraisal process may be temporarily suspended in order to deal with the grievance.

11.6. Confidentiality

The appraisal process will be treated with confidentiality. In particular, the Appraisal Review statements are confidential to the head teacher, appraiser and the appraisee.

However, the desire for confidentiality does not override the need for the Head teacher and LGB /MAT to quality assure the operation and effectiveness of the appraisal system. The Head teacher will review all teachers' objectives and written appraisal records personally in order to check consistency of approach and expectation between different appraisers.

The Head teacher will be made aware of all pay recommendations that are made. Information can be anonymised for the purposes of the governing body and the Trust's monitoring the operation and effectiveness of the system.

11.7. Definitions of terms

Unless indicated all references to "teacher" include the Head teacher

12. MONITORING AND EVALUATION

The LGB/MAT/Head teacher/Regional Director and Reach South will monitor the operation and effectiveness of the appraisal process arrangements. The Head teacher will provide the LGB/MAT/Reach South HR with a written report on the operation of the academy's appraisal (and capability) policies annually. This information will be shared and discussed with the trades unions at school. The report will not identify any individual by name. It will include an assessment of the impact of these policies on:

- Race
- Sex
- Sexual orientation

- Disability
- Religion and belief
- Age
- Part-time status
- Maternity and pregnancy
- Caring responsibilities

The policy will be reviewed and amended (where necessary) annually by Reach South, in consultation with the trade unions at a national level, based on the information received, and on any trust or legislative change

13. RETENTION

The LGB and the Head teacher will ensure that all written appraisal records are retained in a secure place for six years and then destroyed.

14. ACCESS TO DOCUMENTATION

All staff will have access to documentation relating to school improvement and development and any other documents and procedures to which this policy relates. These will be available on the individual Academy/MAT/Reach South internet sites and /or can be obtained from the school office.

Appendix 1 – Appraisal Structure

Professional Standards Document		Teacher:	Pay Point:	Date:	
		The objectives set must be such that, if they are achieved, they will contribute to: a) Improving the education of pupils at the school; and b) The implementation of any plan of the governing body designed to improve the school's educational provision and performance. This document should be discussed with the teacher and should be focused on developing an aspect of leadership and management relating to the stage they are at in their career. No matter what career stage the teacher is at, we always want to be investing in leadership development. Please highlight in GREEN all the experiences, courses and opportunities that you have already had during your career. (Work through column by column.) Then identify in PINK no more than 3 things you would like to achieve during the next year. This can be discussed with your line manager in the Performance Management meeting.

Appendix 2 - Professional Development Guidance Document

 <p>Professional Development</p>		Teacher: Pay Point Date					
		The objectives set must be such that, if they are achieved, they will contribute to: a) Improving the education of pupils at the school; and b) The implementation of any plan of the governing body designed to improve that school's educational provision and performance. This document should be discussed with the teacher and should be focused on developing an aspect of leadership and management relating to the stage they are at in their career. No matter what career stage the teacher is at, we always want to be investing in leadership development. Please highlight in GREEN all the experiences, courses and opportunities that you have already had during your career. (Work through it column by column.) Then identify in PINK no more than 3 things you would like to achieve during the next year. This can be discussed with your team leader in the Performance Management meeting.					
	NQT / M1 – M3	M4 - M6		UPS 1 - UPS 3		TLR	LEADERSHIP SPINE
Shaping the future	Be an observer at a leadership team meeting followed by feedback	Review a school policy and present it to the Leadership team	Write a new policy through consultation and review, & present to staff and governors	Make a significant contribution to the production and implementation of a clear, evidence-based Action plan	Make a significant contribution to a school change team to improve an aspect of school	Write a SEF summary report on one of the main areas and present to the leadership team	Shape and populate a priority area on an aspect of the SDP
	Contributing in Curriculum Planning meetings and PPA to planning and preparing resources	Lead on one aspect of School Self Evaluation. E.g. behaviour monitoring and report to the leadership team	Lead on one aspect of School Self Evaluation. Appendix 3 - Classroom Observation Protocol

Observation of classroom practice and other responsibilities is important both as a way of assessing the performance of teachers' in order to identify any particular strengths and areas of development they may have and to gain information which can inform Academy improvement generally. All observation will be carried out in a professional and supportive fashion, with professionalism integrity and courtesy. They will be evaluated objectively and reported accurately and fairly and will take account of particular circumstances which may affect performance on the day. Observations will be undertaken by staff with QTS, wherever possible this will be the appraising line manager. Those undertaking observations will have received appropriate professional skills and training to undertake observation and provide oral and written feedback.

Appraisal observations should be planned in advance at the review and planning meeting. This includes the focus for observation, the frequency and the time in the year when these will take place. Observations will be undertaken by the Appraiser.

Where it is not possible to set the actual observation date/time at the planning meeting, teachers should be given at least 5 days advance notice of an observation appointment. For the purposes of appraisal, teachers will be observed on an appropriate and reasonable number of occasions. The length and number observations will be appropriate for the experience and career stage of the teacher and the time will not be excessive. In normal circumstances observation for appraisal purposes should be undertaken on no more than 3 occasions and used in a multi-purpose way where possible. This excludes:

- Peer observation for professional development purposes
- The observation of teachers undergoing Initial Teacher Training
- Observations of NQTs as part of their induction year
- Observation of teachers who are in receipt of additional focused • support to address performance concerns, within the appraisal • process.
- Where a teacher requests additional observation visits
- Leadership drop-in to monitor and review teaching and learning within
- Subjects

Focus of the Observation:

The focus of the observation will, as far as possible, be agreed by the appraiser with the teacher during the appraisal review/planning meeting. The observation should provide evidence of the teacher's performance against the Teacher Standards and provide evidence to inform achievement of objectives. Observation Feedback: For the purpose of professional development, feedback about lesson observations should be developmental, not simply a judgement using Ofsted grades. Feedback will highlight particular areas of strength as well as any areas that need attention. Oral feedback following observations should be provided as soon as reasonably practicable, preferably within 24 hours of an observation. Feedback should take place in a suitable and private environment. Written feedback notes should be provided to the teacher within 5 days and teachers should have an opportunity to append a comment on the feedback notes.

Date & Time		Area of Curriculum		Length of Observation		Learning Behaviour	Interactivity & Engagement
Teacher		Support Staff		Observer		Questioning	Differentiation

Focus		4	3	2	1
Learning and Support and Resources	Learning Behaviour	Room not set up in preparation for lesson. Resources and children's access to them is restricted.	Routines established. Preparation evident. Resources accessible. Some children accessing resources independently	Routines fully established. Work is ready for groups and/ or individuals (i.e not given out materials group by group. Some independence evident).	Very well prepared. Routines very strong and embedded. Children access necessary resources independently.
	Differentiation	No use of independent materials or resources to support children's learning	Some use of independent supporting materials and resources are used to support children's learning	A variety of differentiated scaffolding and supporting materials and resources are used to meet the needs of all the children.	Precisely differentiated resources including new technologies make a marked contribution to the quality to learning.
	Adult Impact	Additional adults not used effectively. Adults not aware of the needs of the group or individual they are working with. Can provide too much or too little support.	Planned involvement of additional adult but lacks direction or impact on children's learning.	Additional adult is actively involved in the lesson and has clearly defined tasks. These make a significant contribution to the quality of learning.	Additional adult is used to maximum effect in <u>different stages of the lesson</u> . The teacher has planned stimulating activities and resources for the adult to support or teach. The planned support extends the learning of the children.
	Use of ICT	No use of ICT or interactive technologies.	ICT and interactive technologies used adequately.	ICT and interactive technologies used imaginatively and effectively to support children's learning.	Appropriate and challenging ICT used, interactive technologies used to enthuse, engage and enrich children's learning.
Teaching	Learning Objectives	No clear learning (LO) objective and aims. No success criteria shared / generated	LO visible but not explained to children or put in context, or LO regularly stated or referred to but not visible. Success criteria referred to but not explained.	LO visible or clearly explained throughout lesson and contextualized to the children. Success criteria referred to / generated and explained and discussed.	LO is contextualized and reference is made about previous and/or future learning. Children are able to independently generate success criteria for own use.

	Interactivity & Engagement	Bland teaching with no use of interactive strategies. Little pupil contribution. No variation in voice, tone or audibility.	Some use of interactive teaching strategies. Children generally attentive and participating in lesson. Some limited use of voice, tone or audibility.	Teaching is stimulating and children are motivated, engaged and enthusiastic. A range of interactive strategies are used. Voice used effectively.	Teaching is inspiring and children are fully involved, responding enthusiastically to the teaching. A wide range of interactive and imaginative teaching and learning strategies used. Voice is used effectively.
	Questioning	Little use of open or differentiated questioning.	Differentiated questioning – some open questions to enable misconceptions to be dealt with swiftly.	Teacher expects full responses, getting children to justify and explain their thought processes. Provides differentiated questions for all groups.	Range of differentiated questions used throughout the lessons. Understanding is checked in a range of ways. Teacher uses dialogue effectively to ensure learning of a very high quality.
	Questioning & Interactivity	Lace of pace and teacher enthusiasm. Too much time spent handing out and explaining tasks.	Pace fluctuates. Some pockets of inertia. Some children's attention drifts	Good pace with ongoing reflection on children's understanding.	Teaching is sharp and pacey.
	Questioning	Lesson ends abruptly with no time for plenary or plenary used solely for feedback – show and tell.	Minimal plenary time. Plenary is used as a distinctive teaching session without reference to future learning (i.e. Just a quick recap of the lesson).	Full plenary is used to recap and extend objective or address misconceptions. Teacher links the lesson's objective to future learning.	Plenary is used as an opportunity for children to assess their own learning. Teacher sums up by making explicit links to the next lesson.
	Questioning	Teacher subject knowledge patchy and challenge insufficient.	Teaching is accurate and based on secure subject and pedagogical knowledge, and is challenging.	Challenge is realistic and pupils are productive. Teacher has a wide and secure subject and pedagogical knowledge.	Achievement is very good. Teaching consistently challenging and interesting, stemming from excellent subject and pedagogical knowledge.
	Teaching Focus	Teacher has no teaching focus during independent task or is too focused on one group.	Teacher has teaching focus during independent tasks but also intervenes with other groups.	Teacher extends group's learning through focused, stimulating teaching during the independent time.	The same high level of teaching continues within the independent group activities.
Pupil Proare	Differentiation	Activities fail to match the teaching LO.	Activities show some reference to objective.	Activities match learning objectives and fully engage the children and extend learning	Activities match objective and are stimulating and extend learning.

	Differentiation	Tasks not differentiated, or reliant upon differentiation by outcome and adult input	Some provision for G&T, EAL and SEN who are seen to be making progress that is broadly in line with their capabilities	EAL, SEN and G&T provision shows a good understanding of the children's learning needs and current development, securing good progress and learning	T&L activities show the teacher's ability to give all children access to the lesson. Challenging activities extend their current stage of learning.
	Learning Behaviour	Children unaware of what they have to do or what they are learning.	Children understand the task and are generally focused, working steadily and occasionally showing high levels of enthusiasm and interest	Children fully understand the tasks, apply themselves diligently to them, working towards the learning objective and are enthusiastic to complete them	Children work on tasks enthusiastically with perseverance and concentration and understand how they are working towards the learning objective.
	Questioning	No opportunities for identifying misconceptions and addressing them	Teacher gives opportunities to check for understanding and intervenes if pupils are not clear about task or LO	They listen to, observe and question groups of pupils consistently to reshape tasks and explanations to improve learning.	The teacher is able to make quick, accurate assessments of class progress, systematically checking pupils' understanding and anticipating interventions.
	Learning Behaviour	Children are not focused on task. Poor Behaviour management. Behaviour Expectations are low, behaviours ignored	Behaviour management strategy evident and used to create a largely calm working environment, but key children not focused in on all of lesson.	Consistent and effective use of praise, positive criticism and behaviour management strategies. Generally, a calm working environment	Excellent use of praise, positive criticism and behaviour management strategies where needed. The high quality, stimulating teaching engages all children. There is purposeful but calm environment.
Marking & Assessment	Marking	Expectations are inappropriate. Teacher is unaware if the children have met objectives. Targets set for most children are easy, too hard or too general.	Teacher lets children know how well they are doing and uses this information to set targets that pupils understand. Regular and accurate assessment informs future planning. Teacher has made rough assessment of learning.	Teacher has made accurate assessments. Pupils are provided with detailed feedback, orally or marked. They know how well they have done and can discuss what they need to do to sustain good progress.	Teacher has enabled children to assess their own learning as well as tracking each group's attainment within the lesson. Pupils are helped to judge the success of their work and to set future targets and make improvements.
	Differentiation	No differentiation evident in children's work.	Limited differentiation evident in children's work.	Range of differentiation evident in children's work.	A wide range and variety of differentiation and an excellent standard of work from all children at their ability.
	Presentation	Work presented to a poor standard. No reference to presentation quality.	Work presented to a reasonable standard despite focused targets from the teacher. Presentation policy evident in work.	Work presented to a good standard reflecting presentation policy, and high expectations show that standards are improving.	High expectations resulting in an excellent standard of work from all children at their ability.

	Marking	Marking is general and infrequent and does little to help pupils improve.	Work is marked regularly and pupils are aware of their set targets and the overall quality of what they have done.	Marking helps pupils improve their work. Is Feedback on work (oral and marking) well focused?	Feedback on work (oral and marking) is well focused, diagnostic and helps pupils understand in detail how to improve their work. Pupils have shown efforts to do so.
